Tabacon Thermal Resort and Spa

A Unique Retreat offering the combination of the energy of the volcano, the flowing waters of the hot springs, and the fresh air of the rainforest! The Tabacón experience includes unlimited access to the mineral natural hot springs of the property. Water flows by gravity throughout the property, forming in-river pools, waterfalls, and cascades, filling in the pools throughout the resort. These natural pools are located along walking trails surrounded by steaming tropical gardens; temperatures range from 25 to 38 degrees Celsius (77 to 102 F). Located in a secluded section, Shangri-La Gardens is an area of six natural thermal mineral spring water pools, exclusively for adults. The Spa at Tabacón offers an incomparable experience featuring local ingredients. Volcanic mud, coffee, or coconut are used in different treatments, from massages to exfoliators and wraps.
