Mon 30 Sep 24: Bamboo Rafting & Sea Turtle Conservation Center

Bamboo Rafting & Sea Turtle Conservation Center

Begin your day tour with a hotel pick-up in Khao Lak between 8:00 AM - 9:00 AM, and depart for the river. Hop on a bamboo raft and float along the waters, relax and enjoy the stunningly beautiful rainforest around you as your raft is pulled by a local boatman. Visit a sea turtle conservation center working to save and increase the number of sea turtles in the region. The Royal Thai Navy plays an active role in turtle conservation and baby turtles are brought to the center, where they are nursed for 6-8 months before being released into the sea. Finish the tour with a trip to Ton Pling Waterfall, the most popular waterfall in the area. Experience the lovely atmosphere and marvel at the amazing environment surrounding you. Swim in the small ponds at the waterfall and just enjoy the relaxing ambiance, before being dropped off back at your hotel.

Note: The program is subject to change due to availability and other reasons.
