Thundering Streams and Falls of the Smokies Guided Hiking Tour With 3100 miles of streams in the Smokies, there are thousands of beautiful stretches of white water. Adventure awaits as you explore the magic of pristine cascades and waterfalls on a little-known trail. We'll warm up on a more popular trail, pausing to enjoy smaller cascades before turning onto a less traveled section of the Park. In the winter, we'll enjoy beautiful glimpses of the surrounding mountains, during the spring we'll pause to enjoy our famous wildflower display, summer brings refreshing swimming holes, and in autumn the beauty of changing leaves. This hike is considered moderately adventurous as we gain elevation, climb over downed trees and get our feet wet. \*\*Please note: The Great Smoky Mountains National Park will require parking tags for any vehicle stopping longer than 15 minutes.
